Using iTouch2Pay, businesses in Canada and the U.S. can process VISA, MasterCard and Amex transactions in real time.   Once the transaction is processed, the cardholder receives an email receipt.

iTouch2Pay can assist your business in acquiring a VISA and   MasterCard set of merchant accounts.   These accounts provide a high level of security and are provided to you from one of our North American financial partners.   In some cases, we may be able to connect to your existing merchant accounts.

This is a mobile service targeted to businesses that want to charge customers on the go. It works in real time on 3G, Edge and WiFi.

Before you sign up, try out all of the features of iTouch2Pay for FREE, using the included demo mode.

Call us at 1 888 218-1020 and we'll turn this demo copy into a live mobile credit card terminal.

-----Features-------

Perform a Sale

   - rapid entry of cardholder information
   - email a receipt from the device
